RE: Parks Department Report for June 2014

Dear Board Members:

Events, development and maintenance are the names of the game. Whether it is Westfield Rocks the 4th or a roundabout, Westfield Parks and Recreation's crew is keeping the parks full, the people happy and growing our facilities.

Internships: Our Urban Forestry Intern Colin is working his way south on the Monon and has inventoried over 2,500 trees. We expect him to have inventoried approximately 10,000 trees on numerous properties by the end of the summer. Melody Tincknell has returned from her wedding and jumped into our events and programming full swing. She is assisting with volunteer coordination for events, Westfield In Bloom and several programming projects.

Maintenance Division: Maintenance has been working hard to ensure irrigation is working properly in all of our parks. Regular playground safety audits, tree trimming and waste removal are underway to ensure visitors are safe and enjoy a clean environment. Equipment has arrived and a new Tot Lot should be completely installed at Simon Moon Park on June 30th.

Programming: Month one of Programming's 2nd year is complete, with twice as many classes filling their minimum requirement as last year. Weather has raised challenges and we have received much rain throughout the past weeks on weekdays, but we have prevailed in rescheduling classes as necessary. Brittany Goger and Melody Tincknell are working diligently on finding classes new to the area for the fall season. The first fall Grand Guide deadline recently past and all is going smoothly.

Special Events: The Bicycle Rodeo on June 7 was a great success thanks to help from Carmel Cyclery, the Westfield Police Department and our sponsors. Westfield Rocks the 4th is fast-approaching. There are no major concerns at this time for the event, and much of the credit goes to our volunteer committee.

Date: June 26, 2014

Re: Public Works Project Report

Memo to Board Members

Dear Board Members, I would like to take this opportunity to update you regarding the current status of our City projects.

Westfield Public Works Executive Summary Progress Report

1. Street Maintenance

The Department of Public Works continues to utilize the potholes@westfield.in.gov email as a central, organized database of citizen requests and necessary repairs. The majority of issues have been resolved but we are prepared to take care of any surface issue immediately upon it becoming known. Currently the street division is focused on shoulder work which will help protect our roads by removing standing water, where possible, from the road surface.

2. Emergency Repairs

In addition to previous repairs, the City of Westfield has performed several large subsurface repairs along Westfield Park Blvd. that were failing. This work has been completed and we are working with INDOT to mill and resurface the remainder as a part of their project due to the traffic that has been utilizing this area for access for the US 31 project.

We are investigating a repair at 186th street and Shady Nook. The proposed repair will be supported by the local development community and businesses that have abused the road in this location. We anticipate on having responses from the local development community on their participation in this repair.

4. 186th Street & Grand Park Blvd. Roundabout Extension

City Project Manager: Mike Morgan

Designer: American Structurepoint

Funding: 100% locally funded (Utility Proceeds)

Contractor: Crider & Crider

Critical Schedule Item: Striping & backfill at curbs

This project is nearly complete. The intersection has been open to traffic all Spring with short closures to assist construction. The City is beginning to work on the punchlist issues to be handled by the contractor.

5. 161st Street & Carey Road Roundabout

City Project Manager: Gary Pence

Designer: DLZ

Funding: 100% locally funded (Utility Proceeds)

Contractor: E&B Paving

Critical Schedule Item: Utility relocation

The last remaining utility is Frontier that needs to be moved. As stated last month this was expected to be complete by the first week in July. E&B Paving is scheduled to mobilize June 30th. Traffic backups continue to be a concern and we will monitor their flagging and traffic management. This project is anticipated to be open throughout the duration of the construction barring a few short closures to complete tie-ins and perform road crossings.

6. 156th Street & Springmill Road Roundabout (Federally supported)

City Project Manager: Gary Pence

Designer: A & F Engineering

Funding: 100% Federal supported construction & inspection

INDOT Bid Date: ~~August 2014~~ December 2014

We are awaiting mortgage releases for two of the properties. Due to not having the land secured, the letting date for this work has been moved back to the Fall which will dictate a Spring start to construction. Once all right-of-way (ROW) has been secured and is approved by INDOT, utilities will start relocating. We plan to have a 45 day closure of the intersection during the course of construction. We anticipate utility relocation starting the Fall to prepare for the construction release. Duke will have the largest part of this utility work as they must move transmission lines to accommodate the intersection improvements. Also running overhead are two to three other utilities which need to go in

progression. Other issues include needing an additional information for environmental (AI), trees for bat habitat (should be able to work around), and need LPA INDOT/Local agreement. Once the required bonds and insurance are received by the City, we recommend executing the contract and issuing a Notice to Proceed (NTP) to **Rieth Riley Construction Co., Inc.**

The following is the proposed schedule for the construction of the N. Union Street Extension project:

- 6/18/14 – Letting
- 6/26/14 – Board Meeting w/ Contract Award Recommendation
- 7/1/14 – Issue NTP to Contractor
- 7/7/14 – Begin Construction
- 9/14/14 – Estimated Substantial Completion (*75 days from NTP*)
- 10/14/14 – Estimated Final Completion (*30 days from Substantial Completion*)

We appreciate the opportunity to continue to serve the City of Westfield. If you have any questions please contact either Jason Rowley (317-605-7860) or myself (317-780-7252).

RE: Designation No. 1173468; Construction Inspection Services for the Construction of a Roundabout at the Intersection of 156th Street and Springmill Road in Westfield, Indiana

Dear Ms. Bowdell:

This letter is intended to transmit the proposed Agreement between the City of Westfield Board of Public Works and Safety and the consulting engineering firm of Butler, Fairman and Seufert, Inc. for providing construction inspection services for the above project.

The following items of information are relevant to this submittal:

1. The City does not have sufficient engineering staff to provide the services noted in the May 12, 2014, request for proposals.
2. Procedures for selection for a consultant: The request for proposals was posted on the INDOT RFP web site.

The proposals were scored using the INDOT "Consultant Selection Rating form" after their receipt on May 27, 2014. At that time, our Board selected the firm of Butler, Fairman and Seufert, Inc., to perform the designated services. They received the highest score.

3. Our Board met with John Speidel, Jr. of Butler, Fairman and Seufert, Inc., to discuss additional information regarding scope, scheduling, and proposed compensation for the designated services. We have reviewed this information and are submitting it for your review prior to finalizing the contract for the subject work between our Board and Butler, Fairman and Seufert, Inc.

Ms. Kim Bowdell

4. We are aware that 15 percent of the bid price is the limit of Federal Highway Administration participation in this project. We recognize that costs in excess of 15 percent of the bid price will be the responsibility of the City of Westfield.
5. Following your review and concurrence, please issue our Board a notice of authorization to proceed. Also, copy our consultant, Butler, Fairman and Seufert, for their information. We will then issue BF&S a notice to proceed and copy your files.

We would appreciate your prompt review of the proposed Agreement in order to avoid any delay in proceeding with this project.

If you have any questions concerning these matters, please contact our office. Thank you.

Sincerely,

CITY OF WESTFIELD, INDIANA

The CONSULTANT must submit, in writing, a request for review to the LPA. Such delays, if any, shall be compensated for by an extension of time for such period as may be determined by the LPA subject to the CONSULTANT's approval, it being understood, however, that permitting the CONSULTANT to proceed to complete any services, or any part of them after the date to which the time of completion may have been extended, shall in no way operate as a waiver on the part of the LPA of any of its rights herein. In the event of substantial delays or extensions, or change of any kind, not caused by the CONSULTANT, which causes a material change in scope, character or complexity of work the CONSULTANT is to perform under this Contract, the LPA at its sole discretion shall determine any adjustments in compensation and in the schedule for completion of the Services. CONSULTANT must notify the LPA in writing of a material change in the work immediately after the CONSULTANT first recognizes the material change.

Neither the LPA's review, approval or acceptance of, nor payment for, the Services required under this Contract shall be construed to operate as a waiver of any rights under this Contract or of any cause of action arising out of the performance of this Contract, and the CONSULTANT shall be and remain liable to the LPA in accordance with applicable law for all damages to the LPA caused by the CONSULTANT's negligent performance of any of the Services furnished under this Contract.

Re: Consultant Prequalification

Dear John Brand:

The Consultant Prequalification Financial Update Application submitted on 1/23/2014 has been reviewed by this office. Your firm has been prequalified to provide consulting services to the Indiana Department of Transportation (INDOT) in the work groups listed on the attached Worktype certification, effective 01/29/2014. This approval supersedes any previous approval for prequalification, but is subject to revision or modification in accordance with the most current edition of the INDOT Consultant Prequalification Manual. Your Financial approval will expire on 03/30/2015. Your General/Technical approval will expire on 09/30/2015.

Your Firm's annual contracting capacity for the CPA Audit Level is \$23,150,224.00 for the fiscal period that ended on 9/30/2013. Your firm was approved for this financial level as notified separately by the External Audit Section. Your requested and approved financial level determines the firm's service limitations as stated in the INDOT Consultant Prequalification Manual. Consultant firms must submit their annual financial application within 180 calendar days of the end of each fiscal year.

You are required to submit a modification application in the event of any changes in firm ownership, firm address, form of business entity under which the firm operates, manpower significant enough to affect the firm's qualifications or capacity (or operations of laboratories, facilities, etc.), financial status (such as filing for bankruptcy), or any other change which affects an element INDOT considers when prequalifying a consultant. The Consultant must notify INDOT within 15 days of any change in the information provided in its Prequalification Application and to submit a modification application in a timely manner. Failure to submit a modification application within 30 days after the initial notification will result in the loss of the Consultants Prequalification Status.

Please contact Mr. John Leming, Consultant Prequalification Research Analyst at 317-234-4917 if you have any questions on this matter.

Respectfully,

Karen B. Macdonald, P.E.

Re: Report on Review of Financial Prequalification submission **14-15-143**
For Fiscal Year Ending: September 30, 2013

Brad Watson
Butler, Fairman, & Seufert, Inc.
8450 Westfield Blvd.
Indianapolis, IN 46240

Dear Mr. Watson:

External Audit has reviewed the Financial Prequalification submittal by Butler, Fairman, & Seufert, Inc. for the fiscal year ending September 30, 2013. This notice is to report the results of the financial review. For further information regarding the overall Prequalification status of your firm, including technical requirements, please contact the Prequalification Section directly.

We reviewed an Indirect Cost Schedule and associated required documents for Financial Prequalification submitted for the CPA Audited Level.

Per the Somerset CPAs report, the Indirect Cost Schedule was audited in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States and 48 CFR Part 31, with an audited indirect cost rate of 176.32%, facilities capital cost of money rate of 0.18% and expressed the opinion that these rates present fairly, in all material respects, the direct labor, fringe benefits, and general overhead of Butler, Fairman, & Seufert, Inc. for the period ending September 30, 2013.

Indiana Department of Transportation (INDOT) accepts the use of these rates for invoicing of services provided during the firm's fiscal period covered by this report, for contracts with or administered through the agency. Acceptance of these rates for this use does not constitute "establishment of a rate by a cognizant agency" for the purpose of applying the regulations published in Title 23 CFR Sect. 172.7. INDOT also accepts the use of these rates as provisional rates for estimating, negotiating and billing current contracts with or administered through the agency. This provisional rate acceptance expires March 31, 2015. Costs billed to contracts with federal participation are subject to audit for compliance with the cost principles contained in 48 CFR Part 31. With the financial prequalification accepted at the CPA Audited Level, this firm is **not** restricted to total annual billings of less than \$250,000.00 for a contract or contracts with or administered through INDOT.

Total wages and salaries (not including bonuses, profit share, company retirement contributions, or other forms of indirect compensation) were submitted as \$5,733,146 Direct and \$5,481,966 Indirect, for a total of \$11,575,112.

The audited financial submission for this firm documents the separation of direct and unallowable indirect vehicle operating cost, from allowable indirect vehicle operating costs. This firm may bill and be reimbursed for direct miles billed for contracted services in accordance with State statute and policy.

Issues concerning the financial data submitted to the Agency and the allowable indirect cost rates accepted by External Audit are subject to the following procedures. All CPA workpapers used as the basis to establish an audited overhead rate must be made available to INDOT for review at a location of mutual agreement, as determined by INDOT and the consultant firm. The consultant firm named above is solely responsible for all costs billed by the firm's Independent CPA related to the review of the auditor's work papers by the agency. INDOT and American Council of Engineering Companies agreed to the implementation of a Dispute Resolution Procedure effective January 1, 2008. Firms wishing to dispute the indirect cost rates allowed by the agency may request a meeting with Mark Ratliff, Director of Economics, External Audit, and Performance Metrics at (MRatliff@indot.in.gov).

This letter is for internal use only and shall not be used for any other purpose. Occasionally, INDOT receives requests from other state transportation agencies to share the financial data for firms providing financial prequalification submissions to our agency, and we may respond to those requests. Firms offering "engineering and design services", as defined under 23 USC 112(b) (2) (A), who have submitted financial data for Prequalification with INDOT will receive a notification from External Audit summarizing any such data provided and identifying the agency and contact person receiving the information.

If you have any questions or concerns regarding your financial submission or the allowable indirect cost rate for your firm, you may contact External Audit directly.

Sincerely,

William Farley, Field Auditor

Dear Ms. Cunningham,

Subject: DBE Certification Letter

The Indiana Department of Transportation (INDOT) thanks you for submitting an application for certification as a Disadvantaged Business Enterprise (DBE).

We are pleased to inform you, based upon our review of the information submitted, your company is hereby certified to bid and participate as a DBE firm on State of Indiana federally-funded transportation-related contracts.

Your company is certified as a DBE only in the areas listed on the attachment to this letter. This sheet also shows the DBE Codes and NAICS Codes we have assigned to the areas of work in which you are certified.

Please review the list of DBE Codes that can be accessed via link on the INDOT DBE website: <http://www.in.gov/indot/2392.htm> to ensure that the proper code has been assigned for the type of work that you have been certified to perform. Please note that the DBE Codes are very general and are used only to assist our customers in searching the INDOT DBE Directory for certified firms to meet the contract goal. INDOT will assign the NAICS Code appropriate for your firm. If you disagree with our NAICS Code assignment, you may contact us to request reconsideration.

If your business should develop the resources and expertise, including equipment and personnel, to work in other fields and you wish to be certified in those areas, you must request an additional certification determination from this office prior to performing those functions for DBE credit. Such a request may require you to provide additional documentation and receive an additional site visit. Conversely, if your business no longer has the ability to perform certain types of work or loses its pre-qualification status in certain areas, INDOT must be notified of those changes within (7) business days of the change.

To maintain your DBE status, you must notify INDOT immediately of any change in location or contact information, including an updated email address. You must also inform INDOT in writing of any change in circumstances affecting your ability to meet size, disadvantaged status, ownership, or control requirements or any material change to the information provided in your application. The information above must be received by INDOT within seven business days of the change. Failure to do so may result in revocation of your firm's certification.

This certification status with INDOT remains effective provided there are no changes in your firm pertinent to your certification eligibility. You will be asked to submit an annual affidavit certifying that there have been no such changes. Every (3) years you will receive a full recertification review that will include an onsite investigation.

INDOT reserves the right to rescind this certification if any of the following are found to be true: 1) the above requirements are not met; 2) the information upon which the certification is based proves to be false, inaccurate or misleading; 3) other just cause is determined through established investigative procedures.

This certification is separate from INDOT's determination of contractor qualification pursuant to its Prequalification Program Indiana Code 8-23-2-6, 105 IAC11-1-1 et seq., and does not guarantee INDOT prequalification status. Also, this certification is not necessarily accepted by other states and does not validate the capability or capacity of your firm to perform in the area(s) for which you have been certified.

Please address questions regarding this certification to the Indiana Department of Transportation, Economic Opportunity Division, at 317-234-8087.

Sincerely,
